A 25-Cent Coffee That Suits Coffee Critics.

Schotten's 1904 Roasted Coffee in Cartons Superior to Higher Priced Coffees Packed in Cans Coffee Drinkers Are Protected by Our Guarantee—Grocers Will Refund Your Money.

People won't stick to a poor drink-to poor coffee. But the coffee critics of St. Louis who try Schotten's 1904 Roasted Coffee stick to it. It's growing in popularity every day. More St. Louisans are drinking it and St. Louisans are drinking more of it every day.

There must be a reason for this. Our one object in putting this brand of coffee on the market was to have a coffee at a popular price which would be always the same—coffee which would never vary in strength and flavor. Strength, uniformity and fine flavor have distinguished it up to this time and

will continue to distinguish it for all time to come. We guarantee that. Grocers will refund your money on the strength of our guarantee if you are not

satisfied with the strength and flavor after giving it a fair trial. We make that guarantee because we know the coffee is good. It is a blend of the best coffees and every lot is tested for its drinking qualities.

Drink our 1904 coffee and you'll be drinking a coffee as good as any coffee packed in cans sold at 30 and 35 cents. Only 25 cents for a pound carton. It can't lose its flavor. Write for booklet, "Coffee Hints." It's free.
